PREFACE

This hand book is being released by Tamil Nadu State Legal Services Authority for explaining the hierarchy of Authorities and their varied activities. The achievements of this Authority have been set out in detail to impress upon the reader the efficacy of legal aid movement in Tamil Nadu. A keener insight into the functioning of this service organisation will motivate the people to have increasing recourse to various legal aid functionaries all over the State and seek their legal assistance. This will also lead to greater awareness in the people at large.

I wish those who are service-minded and devoted to the service of the people and those from different strata of the society read this hand book and make the best use of the services extended by the Authorities.

(Justice N.K. Jain)
